

Dale Stevens

Web Developer

A motivated, ambitious and hard-working developer. Seeking exciting challenges where I can use my interests and skills to the best of my ability working individually or as part of a team. Previous employment, freelancing and volunteer work experience have enabled me to enhance my communication skills and remain professional, while my further education qualifications have allowed me to develop essential logical, analytical and time-management skills.

Experience

Web Developer @ Teapot Creative

10/2016 - Present

Web developer focusing primarily on the popular e-commerce platform Prestashop. Developing custom solutions for clients from custom modules to integrating external APIs.

Freelance Developer

09/2016 - Present

Most recently working with cryptocurrency exchange api's.

IT Support Analyst @ Plymouth University

09/2015 - 02/2016

A customer facing role providing IT related support for students of Plymouth University in halls of residence.

Education

BSc (Hons) Computing @ Plymouth University

09/2015 - 05/2016

FdSc Computing and Internet Technologies @ Somerset College

09/2013 - 05/2015

Languages

HTML5

CSS3 / SCSS

JavaScript

PHP

Frameworks

Git

React / Redux

Node / Express

Laravel

Grunt / Webpack

Prestashop

Hobbies

I enjoy staying active, playing football and running on a regular basis. In my spare time I love playing with new technologies, most recently diving into the React context API and React hooks!
